

# ORALITE 5400

DIGITAL PRINT REFLECTIVE

Due to the flexibility of the 5400 series, this material is ideal for vehicle graphics.

## Description

Weatherproof, self-adhesive retroreflective films with an excellent corrosion and solvent resistance. The retroreflective system of the ORALITE® - Reflective films Series 5400 DIGITAL PRINT consists of catadioptric glass beads which are embedded in a transparent layer of plastic material (design A).

## Front material

Special cast PVC film

## Release paper

PE-coated silicone paper, 145g/m<sup>2</sup>. As the product and batch number are applied to the silicone-coated paper, all production parameters and raw materials can be completely traced back.

## Adhesive

Solvent polyacrylate, permanent.

## Area of use

ORALITE® - Reflective films Series 5400 DIGITAL PRINT were especially developed for the manufacture of guidance and information signs. Suitable for both digital printing with solvent based inks and for use on cutting plotters and provide good adaptability including to uneven surfaces. The smooth surface shows a high scratch resistance and impact strength, and a very good printability.

## Printing Techniques

Solvent-based ink jet printing; Screen printing: The use of ORALITE® - Screen printing inks series 5018 is recommended. A transparent coating is not necessary.

## Recommended laminates

ORAGUARD® 290F, ORAGUARD® 293F

## Outdoor Durability

4 Years.
