

ORALITE 5600

ENGINEERING GRADE REFLECTIVE (7 YEAR)

Description

Weatherproof, self-adhesive, retro-reflective ORALITE® reflective films series 5600 FLEET ENGINEERING GRADE boast high flexibility and printability, combined with excellent corrosion and solvent resistance.

The retro-reflective system of the ORALITE® reflective films series 5600 FLEET ENGINEER GRADE consists of catadioptric glass beads which are embedded in a transparent layer of plastic material.

Release Paper

89# PE-coated silicone paper

Adhesive

Solvent polyacrylate, permanent, removable with heat

Areas of Use

ORALITE® reflective film series 5600 FLEET ENGINEERING GRADE was specially developed for high quality vehicle graphics to include lettering, markings and printed images.

They are suitable for use on cutting plotters, thermal printers and solvent inkjet printers, providing flexibility around curves, corrugations and rivets.

Printing Techniques

Solvent-based ink jet printers, eco-sol printers and screen printing on white only.

Thickness

(without protective paper and adhesive) 110 to 140 micron

Front Material

5-mil retro-reflective cast PVC film

Outdoor Durability

7 Years

Surface finish

Special cast PVC film
