

ORACAL 8300

TEMPORARY OVERLAY

Description

Special transparent coloured PVC film with UV-stabilizers. Glossy surface.

Release paper

Silicone coated paper on one side, 137 g/m², with special release characteristics, which provide excellent waste-stripping properties.

Adhesive

Solvent polyacrylate, permanent

Area of use

This film is especially designed for permanent markings for internally illuminated signs and window graphics and meets the requirements of the computerized sign-making industry. Both dry or wet application are possible, whereby the adhesive does not change the colour.
