

ORACAL 7510

FLUORESCENT PREMIUM CAST

Description

High performance, cast fluorescent film with high visibility when illuminated by all daylight conditions. Especially effective in twilight and poor visibility conditions.

Release Paper

84# custom silicone-coated paper with special release characteristics that provide excellent weeding and release values.

Adhesive

Solvent polyacrylate, permanent.

Areas of Use

Designed for graphics that require high-impact visibility such as vehicle livery and bus advertising, point-of-purchase displays, labels, decals and retail applications. Ideal for use on computer-aided sign making (CAS) equipment, and can also be used for screen printing. **The 7510 series meets chapter 8 specifications for highway vehicle livery.**

Printing Techniques

Screen-printing is recommended

Outdoor Durability

(based on vertical surface exposure) 2 years (1 year pink and orange)

Resistance to solvents and chemicals

After 72 hours adhered to aluminum at room temperature, resistant to most oils and greases, weak acids, salts and alkalis.

Recommended Printing Inks

Screen printing

- Free slitting service.
- Rolls slit to bespoke orders.
