

Be seen and be safe with our range of Vehicle Conspicuity products

CHEVRON KITS

As UK Master Distributor of Orafol reflective sheeting, Tennants can provide Chevron Kits for all commercial vehicles working on our highways and construction sites.

Utilising vehicle specific made to measure templates, our kits fit perfectly onto a huge range of models.

Chevron kits supplied by Tennants are produced from high quality Oralite Fleet Engineer Grade reflective material (5200, 5400 and 5600 ranges) and fluorescent cast pvc film (6510 and Premium 7510) providing an eye-catching and durable display, ensuring your fleet gets noticed and operates safely.

Our fleet vehicle range of vinyls feature excellent printability, are removable using heat and conform to uneven surfaces. They are also available with Rapid Air adhesive to make application even easier.

To achieve an even greater visual impact or for Emergency Services and Utility Vehicles choose from our range of Prismatic films

VC612 is a premium (up to 7 year) prismatic livery film of single layer flexible construction, allowing cutting and application to uneven surfaces with **no edge sealing required**. VC212 is a mid-range version of the same product with VC170 providing a cost effective source of prismatic reflectivity for bollards, lamp columns and similar structures.

CONSPICUITY TAPE

To ensure the visibility of Trucks, Trailers and Tankers our ECE 104 tapes will set your fleet apart

ORAFOL are the world's leading manufacturer of ECE104 tape with 20 years of experience in safety markings for the transport industry.

VC 104+ is a single layer prismatic reflective tape with a life of up to 10 years, available for both Rigid Sided and Curtain Grade Segmented vehicles, including pre-cut Tanker Stickers (NOTE: Tape for curtain sided vehicles carries a 3 year life).

Available in a range of colours, VC 104+ tape can be personalised with your logo and branding (MOQ of 6 rolls)
