

The Green Mile

Product Bulletin – November 2020

The Statutory Instrument allowing the sale of Number Plates with green side badges for Zero Emission Electric Vehicles (ZEVs) was laid on the 16th of November as predicted, commencing from the 8th of December

The facts:

- Plates are for pure zero emission electric vehicles only – not hybrids
- Identifier is a green side badge and can include National Flags
- Registration remains unchanged and may still feature borders and True 3D digits
- Plates are available for fitting to all new and existing ZEVs

Pre-printed reflective available to order **NOW**, or **MADE UP PLATES** can be supplied. Contact your Account Manager or Customer Services for more information
