

## Working in partnership to ensure you arrive safely

Starting life as a small plastic coating business in 1982, Mallatite has evolved over the years into its current position as a leading supplier to the UK highways infrastructure. Operating from four production facilities in Tipton, Chesterfield and Inchinnan, Mallatite's scope of supply now covers bollards, traffic signs, street lighting, steel columns, passively safe posts and pedestrian equipment.

Tennants are proud to have established premium supply partner status with Mallatite, having recently installed an Oralite ECO wide format traffic sign printer at both their Oldbury and Inchinnan sites in tandem with an agreement to provide **ORALITE** reflective materials for traffic sign printing and pre-cut bollard panels.

**We look forward to working with Mallatite in the coming years and together will strive to make your journeys on Britain's roads that little bit safer.**

*"Utilising Tennants' high grade material and decades of experience the Tennants & Mallatite partnership will assist to enhance the quality of our industry leading products. The new collaboration will enable us to offer our clients the best possible quality whilst meeting all required standards and regulations that our customers have come to expect from Mallatite." - Nicholas Johns, Marketing and Digital Communications Manager*
