## - visibly better

Is your wide format reflective traffic sign printer showing its age?  
Looking for a cost effective but compliant alternative?  
Look no further - introducing the...

## **ORALITE<sup>®</sup>** ECO Traffic Printer

Produces compliant permanent road signs on HIPs, temporary road signs to BS 8442 and full colour commercial graphics

## CE Marked Permanent Road Signs when used in conjunction WITH **ORALITE<sup>®</sup>** High Intensity Prismatic reflective material

Widely used throughout America and Asia and now available in Europe through Orafol, you may well be wondering why this state of the art printer hasn't already been introduced to you by your existing reflective materials supplier.

Tennants are proud to announce that we have official distributor status for traffic printers and consumables into the UK road sign market and can offer direct on site technical support.
