

Handling & Storage - Signs

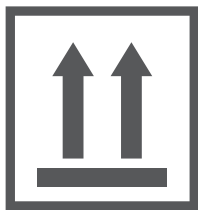

L3-G14

Handling

- These items are manufactured using breakable components
- Incorrect or careless handling could result in damage which may affect performance and invalidate the warranty

Unloading

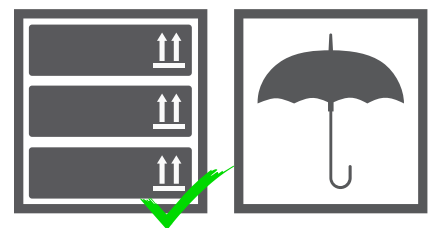

- Ensure packages remain upright as delivered
- Avoid flexing or undue stress during unloading
- Always protect plate edges and faces
- Immediately remove any wet packaging

IMPORTANT

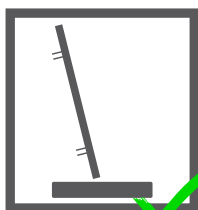

- Always inspect goods on receipt if possible
- If there are signs of damage to a delivery, please ensure the courier paperwork is signed accordingly
- Incorrect, defective or damaged goods must be reported within 7 days

Indoor Storage

- Separate any wet items and allow free air circulation. Allow to dry.
- Keep dry
- Store face to face (with suitable interleaving) and back to back
- Store vertically
- Do not store directly on floor (raise on pallets)

Outdoor Storage

- Separate any wet items and allow free air circulation. Allow to dry.
- Remove all packaging
- Allow free air circulation across sign faces
- Store vertically
- Do not store directly on ground (raise on untreated wooden blocks)
