

# Evo Barrier System

Tennants are proud to announce that with the help of Midlands based Oaklands Group - market leaders in the supply of industrial plastic safety and storage products - we are increasing the range of traffic and pedestrian barriers within our extensive Traffic Management portfolio.

The Evo water filled barrier system comes in three standard lengths, along with a range of optional accessories and extras, including a corner section and choice of mesh or reflective panels.

Durable, yet easy to deploy with its interlocking feature, Evo barriers can be filled with water or sand to provide a more permanent arrangement and create a solid barrier when assembled.

At the end of each use, simply uncouple the sections and stack for ease of transportation and storage.

## Standard sizes:

Evo 1	1000mm long x 555mm high
Evo 1.5	1500mm long x 555mm high
Evo 80	1200mm long x 800mm high

## Accessories and options:

Evo corner	appropriate for Evo 1 and Evo 1.5 only
Mini mesh panels	
Mini reflective panels	
Custom colours
