

Firmus Chapter 8 compliant pedestrian barrier

Tennants are proud to announce that with the help of Midlands based Oaklands Group - market leaders in the supply of industrial plastic safety and storage products we are increasing the range of traffic and pedestrian barriers within our extensive Traffic Management portfolio.

Firmus is your go to solution for temporary pedestrian delineations. Produced from durable UV stabilised polyethylene, each section is 2 metres wide x 1 metre high, with its link pin feature allowing continuous stretches of barrier to be arranged to suit almost any hazard, with its anti-trip foot minimising loss of walkway space usually associated with more obtrusive foot designs.

The Firmus barrier comes as standard with reflective strips for night-time visibility, which can be further enhanced by the addition of beacons or hazard warning signs.

Features:

- Chapter 8 compliant
- Universal pin connection
- Branding available via embossing or application of corporate graphics
- Only 12kg per section providing easy storage and transportation
- UK design and manufacture
- Meets industry Red Book Standards

Accessory options:

- Universal clip system
- Anti-trip feet
- Firmus block
- Coloured feet
