

Heavy Duty Barrier SiteWall

The SiteWall is 1.6 metres long x 650mm high metre wide 300kg water filled heavy duty temporary road barrier system for pedestrian safety on highway or construction sites. The bases can alternatively be filled with sand for a more permanent solution. When combined with compatible mesh SiteFence panels it can create a 2 metre tall secure barrier.

Features:

- Robust heavy duty barrier for low level containment
- Forklift channels
- Can accommodate angles with ease
- Suitable for sand or water filled ballast
- Red and white as standard
- Fully interlocking barrier system with a moulded or steel pin
- Compatible mesh security panels create a secure 2 metre tall barrier

Specification

Dimensions (mm)	L1600 x H650 x W400
Max Angle	90°
Material	UV stabilised HDPE
Weight Empty / Filled	E = 60kg / F = 300kg
Colours	Red / White
Wind Speed	73mph
