TOGETHER WE CAN  
DRIVE CHANGE

## ENVIRO-PLATE

Tennants have long championed Film & Plate as an affordable number plate solution. Printing onto film is a low-cost and efficient alternative to reflective panels. We use Enviroplate for backings because it has a low environmental impact, being 90% recycled. Yet it provides the retroreflective finish and durability required by the British Standards.

Our Enviroplate ensures compliance with standards while offering efficiency. After all, everyone wants affordable solutions with as little negative impact as possible. Not only is Enviroplate certified to BSAU 145e standards, but it's also highly cost-efficient. Creating an end product that is economical, durable, fully compliant and offers recyclable sustainability.

### SUSTAINABLE

Enviro-Plate is made from 90% reclaimed plastics.

### COMPLIANT

Meets and exceeds BSAU 145e.

### DURABLE

At 125 microns thick, our Clear Film is durable.

### QUICK ASSEMBLY

Comes with a high-tack adhesive for quick assembly.

### SAVING

Cost savings£.
